PROFILE

Having thrived in a challenging software engineer internship, I am looking forward to an organization that offers a challenging, stimulating, learning environment to work in and provide scope for individual development, which offers attractive prospects for long-term personal development and career growth.

EXPERIENCE

Software Engineer Intern   **September 2023 - May 2024**
Ikcon Digital It services Pvt.   *Hyderabad*

- Contributed significantly to the development of the Unified Meeting Suite (UMS) project, actively involved in both frontend and backend aspects.
- Unified Meeting Suite (UMS) aims to track tasks that are generated from the action items of a meeting using transcripts of meetings conducted using Microsoft Teams.
- Implemented measures for restricting multiple logins and ensuring a secure logout functionality to enhance overall application security.
- Played a key role in improving the user experience by successfully integrating a loader component throughout the entire application.
- Operated within an Agile framework using Jira and ensuring the punctual delivery of project milestones
